

G42 Set-Up & Rules; for AAG40 2nd Ed.

By Larry Harris/Kevin Chapman: April 2013
(Edited by Greg Smorey Feb. 15, 2019)

This is called the **Global 1942 Scenario**. “Simply stated, one may use one’s Europe and Pacific 1940 game maps to play a 1942 scenario that was designed by Larry Harris.”

“It will be a much shorter game than the present 1940 Global game. It will include far fewer pieces and far fewer rules... especially rules that have to deal with neutrals, being at war, going to war etc...”

There will be NO major neutral Powers. All the NO’s from the Global 1940 game will still apply as is.

ALL Powers begin the game AT WAR. Both the Soviet Union and the US may attack anyone from the onset of the game.

Victory Conditions:

1. Axis win by controlling **8 VCs in Europe or 6 VCs in the Pacific** for a complete round of play (ending with the next turn of the Axis power that captured the final required city) and control at least one Axis capital (**Berlin, Rome, or Tokyo**) at the end of that round.
 - Allies win by controlling **Berlin, Rome, and Tokyo** for a complete round of play (ending with the next turn of the Allied power that captured the third capital) and control at least one Allied capital (**Washington, London, Paris, or Moscow**) at the end of that round.
2. If by the end of game time and no one has achieved the victory conditions above, IPC’s must be counted to determine the victor. **The Axis** must have a total of **125 IPC** to win (this does **NOT** include NO’s or in hand cash), if not, **the Allies win**.

Tournament Play - Ending a Game: The game ends when either of the Victory Conditions are met as noted above. **There are NO round limits, but a min. of 7 rounds of play is strongly encouraged.** Also, please do not stop after playing 7 game rounds. If there is ample time on the official game clock to play another game round. By all means play. See “**End Time Rules**” for details.

The new turn order for G42 should be:

1. Soviet Union
2. Japan
3. United States
4. China
5. Germany
6. United Kingdom
7. Italy
8. ANZAC
9. France

As for who controls which powers refer to page 34 of the Europe 40 2nd Edition Rulebook at the top left where it reads “Number of Players”. But this is only a suggestion- each side can decide who plays which power(s) of that particular alliance.
